

Avra Water Co-op, Inc.

Water We Up To?

Spring 2021

Fix a Leak Week, March 15 through 21, 2021

Leaks Can Run, but They Can't Hide. Are you ready to chase down leaks? Household leaks can waste nearly 1 trillion gallons of water annually nationwide, so each year we hunt down the drips during Fix a Leak Week. Mark your calendars for EPA's annual Fix a Leak Week, March 15 through 21, 2021— and remember that you can find and fix leaks inside and outside your home to save valuable water and money all year long!

Mark Your Calendar!

- March 15- Past Due Balance Due Date
- March 17 - Board Meeting
- March 31 - Bills Due

APRIL IS WATER AWARENESS MONTH | 04. 2018

Customer Service Tips (Please read—these are important!)

Do You Know Where Your Water Meter and Gate Valve are Located? We receive many calls from customers asking for assistance with their meter and how to turn their water on and off. While we are happy to help everyone and will gladly send a technician out to help you locate your meter, your gate valve, and show you how to read the leak indicator at no cost during normal business hours, when a call comes in after our regular business hours, our on-call technician will let you know that there is a \$50.00 after hours charge for coming out to assist you with these problems. PLEASE be proactive and make sure you know how to get to your meter and shut it off BEFORE an emergency comes up. You will also want to keep your meter box clean of dirt and debris and make sure you turn your gate valve periodically to ensure it is operating properly in case you need to use it in the event of a water emergency.

THE FACTS ON LEAKS

10
percent of homes have leaks that waste 90 gallons or more per day

A leaky faucet dripping at the rate of one drip per second can waste more than
3,000 gallons
per year

Did you know?
Minor water leaks account for nearly

1
trillion gallons
of wasted water each year and is equal to annual household water use in nearly
